Mike and Sam-

I was going to tweak this a bit -- as Sara says, add some pleasantries -- before sending it on to you, but it looks like I'm going to get pulled into the meeting with Sterigenics this afternoon. So why don't you start working on your additions now, and then send me back what you have at the end of the day? Sound okay?

Thanks,
Eileen

There are some pleasantries I didn't bother messing with because I knew you'd do better. I've also attached the incoming. We didn't include something about we are following the SH Bell "SOP" with Watco. Don't know if that was specific to superfund, but really it isn't. Do you remember how Kurt phrased that?
